# GreenWorld Capital Overview

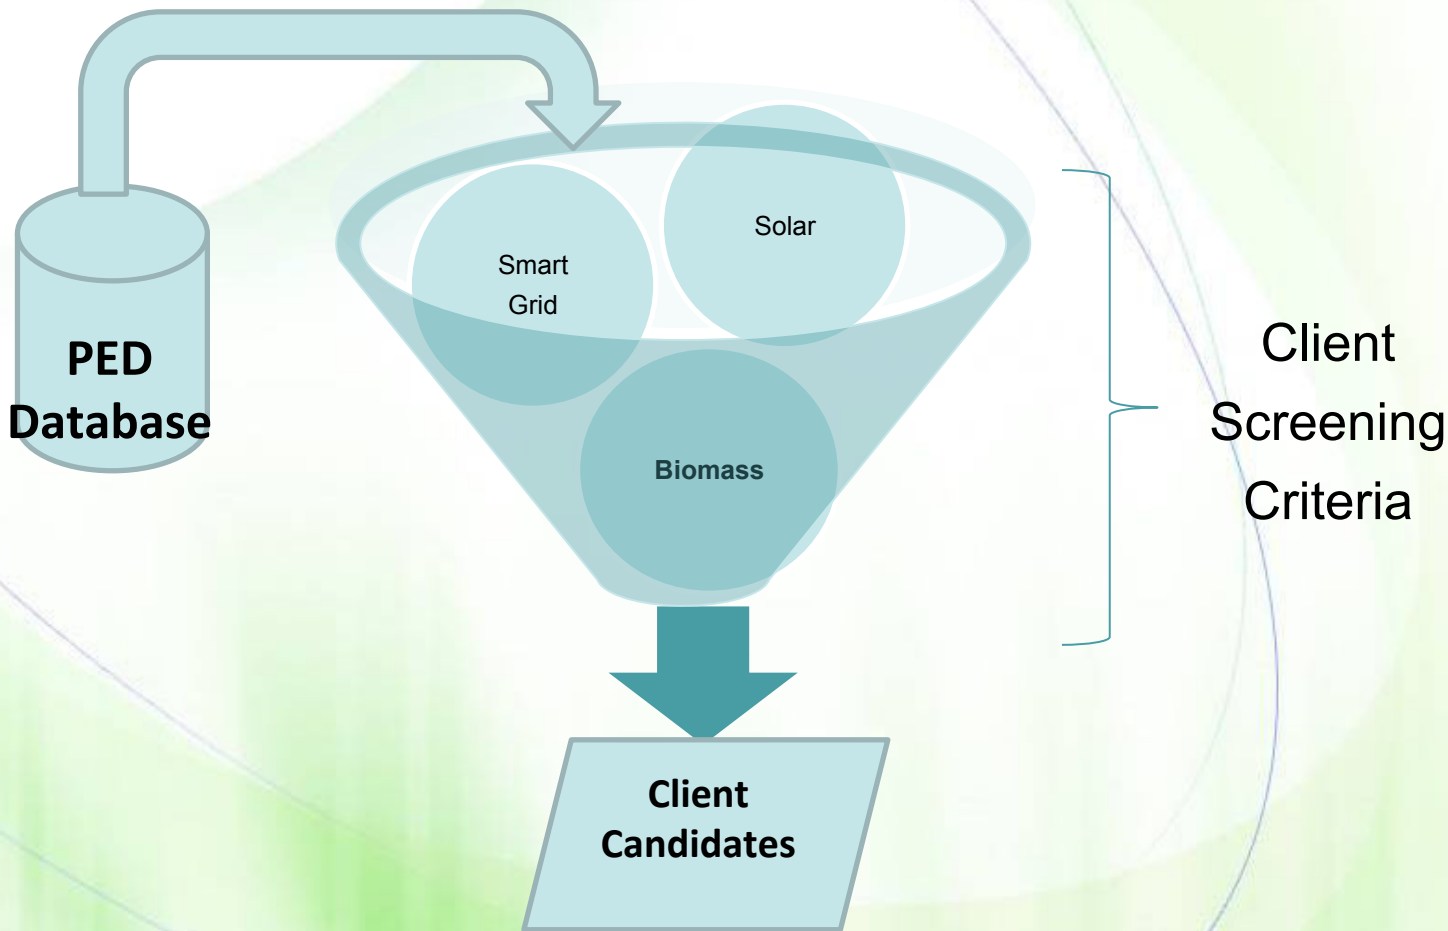

*Senior Professional Team with experience in over **400 transactions** approaching **\$10 Billion** in aggregate value*

**Investment Banking:** A full array of investment banking services including capital raising for private and public companies, M&A (buy side and sell side), strategic advisory, etc.

**Merchant Banking:** Create ventures to capitalize on compelling market opportunities. Recruit deep domain expertise, form alliances, raise capital and serve an ongoing role as principals and part of the management team.

GreenWorld Capital, LLC is an international merchant bank focused exclusively on renewable energy and clean technology companies and investors. Locations in Philadelphia and Palo Alto in the U.S., and Nanjing in China.

Among GWC's proprietary knowledge resources is the **PORTFOLIO ENHANCEMENT DATABASE** which catalogues and analyzes the over 1000 "institutionally sponsored" private clean technology companies funded by over 300 institutional investors through over 3500 rounds of investment.

# GreenWorld's China Business Activity

GreenWorld is positioned as a bridge between industry stakeholders in China and the U.S., assisting:

- (a) U.S. companies and investors seeking access to strategic and investment opportunities and capital in China; and,
- (b) Chinese companies and investors seeking access to strategic and investment opportunities and capital in the U.S., and governments seeking to attract U.S. companies and technology.

*We have focused on Tianjin, Nanjing and Wuhan, China. Our Opportunities Assessment Reports are available at [www.greenworldcap.com](http://www.greenworldcap.com)*

**TIANJIN**

**N**

**WUHAN**

## GreenWorld Capital's Internship Program

*GreenWorld maintains an active internship program with the leading academic institutions across the country. Our interns have been extraordinary and we are very grateful for their efforts.*

*Approximately 50% of our interns have been students at UPENN, both graduate and undergraduate; primarily from Wharton, SEAS and SAS. Their skill, dedication, creativity and attitude reflect the very best of the future leaders of the new energy economy and add great value to GreenWorld Capital and our clients.*
